Projects

Home Food Delivery Website:

Since Dec 2024

- Designing a platform connecting users with reliable home cooks, allowing them to create portfolios, receive ratings, and ensure food delivery services.
- Implemented a user-friendly interface for seamless order placement and management.
- Developed backend functionalities to manage user authentication, order processing, and payment integration.
- Optimized database queries for **faster data retrieval**, improving application response time by **40%**.
- **Tech Stack:** HTML, CSS, JavaScript, Bootstrap, React, NodeJS, MongoDB

RentEase – House & Bike Rental Platform:

Aug 2024 - Dec 2024

- Designed a rental platform that connects users with available houses for rent and bikes for rent in a seamless manner.
- Integrated an advanced search & filtering system, boosting user engagement by **25%**.
- Integrated backend functionalities for user authentication, rental management.
- Ensured smooth rental tracking, availability updates, and user communication features.
- **Tech Stack:** HTML, CSS, JavaScript, Bootstrap, MySQL

TravelMate – Ultimate Travel Guide:

Aug 2024 - Oct 2024

- **Comprehensive Travel Insights:** Provided real-time details on tourist attractions, local pricing, restaurants, street food, and hotel stays to help travelers plan efficiently. Provided insights for **50+ tourist locations** across **10+ cities**.
- **User Reviews & Ratings:** Enabled travelers to share experiences, rate destinations based on their experience.
- **Secure & Structured Data Management:** Designed backend functionalities for efficient data storage, retrieval, and categorization of travel-related information.
- **Interactive UI & Search Features:** Implemented a **responsive design** with **advanced search filter** and an **interactive map-based navigation system**, reducing information lookup time by **35%**.
- **Tech Stack:** HTML, CSS, JavaScript, Bootstrap, MySQL

Trainings

DSA Training | Lovely Professional University (LPU)

May 2024 - June 2024

- Completed an extensive training program focused on **Data Structures & Algorithms (DSA)**.
- Applied DSA concepts in C++, including arrays, linked lists, stacks, queues, trees, graphs, and dynamic programming.
- Participated in coding challenges, improving problem-solving and logical thinking skills.
- Gained hands-on experience in implementing optimized algorithms and solving complex problems.

Certificates

- **Data Structures & Algorithms Using C++ by LPU**
- **C++, Dynamic Programming, Greedy Algorithms from Coursera**
C++ Coursera — [Certificate Link](#)
DP & Greedy Algorithms Coursera — [Certificate Link](#)

June 2024

April 2024

Skills

Languages C++, Java, JavaScript, SQL

Technologies/Frameworks: HTML & CSS, Bootstrap, React JS, Node JS, Git, GitHub, DBMS, MongoDB

Skills: Data Structures and Algorithms, Responsive Web Design, Python and JavaScript

Soft Skills: Adaptability & Quick Learning, Problem-Solving, Teamwork & Collaboration, Perseverance

Education

Lovely Professional University

2023 – 2026

Computer Science and Engineering — CGPA: 7.4

Jalandhar, Punjab

Godavari Institute of Engineering & Technology

2020 – 2023

Diploma — Percentage: 74.60%

Rajahmundry, Andhra Pradesh

Bhavya DAV School

2011 – 2020

Secondary Education — Percentage: 82 %

Tangeda, Andhra Pradesh
